The EDUCAUSE Leadership Strategies series addresses critical themes related to information technology that will shape higher education in the years to come. The series is intended to make a significant contribution to the knowledge academic leaders can draw upon to chart a course for their institutions into a technology-based future. Books in the series offer practical advice and guidelines to help campus leaders develop action plans to further that end.

The series is developed by EDUCAUSE and published by Jossey-Bass. The sponsorship of PricewaterhouseCoopers LLP makes it possible for EDUCAUSE to distribute complimentary copies of books in the series to more than 1,700 EDUCAUSE member institutions, organizations, and corporations.

EDUCAUSE is an international nonprofit association with offices in Boulder, Colorado, and Washington, D.C. The association is dedicated to helping shape and enable transformational change in higher education through the introduction, use, and management of information resources and technologies in teaching, learning, scholarship, research, and institutional management. EDUCAUSE activities include an educational program of conferences, workshops, seminars, and institutes; a variety of print and online publications; strategic/policy initiatives such as the National Learning Infrastructure Initiative, the Net@EDU program, and the Center for Applied Research; and extensive Web-based information services.

#### EDUCAUSE

- provides professional development opportunities for those involved with planning for, managing, and using information technologies in colleges and universities
- seeks to influence policy by working with leaders in the education, corporate, and government sectors who have a stake in the transformation of higher education through information technologies
- enables the transfer of leading-edge approaches to information technology management and use that are developed and shared through EDUCAUSE policy and strategy initiatives
- provides a forum for dialogue between information resources professionals and campus leaders at all levels
- keeps members informed about information technology innovations, strategies, and practices that may affect their campuses, identifying and researching the most pressing issues

Current EDUCAUSE membership includes more than 1,700 campuses, organizations, and corporations. For up-to-date information about EDUCAUSE programs, initiatives, and services, visit the association's Web site at [www.educause.edu](http://www.educause.edu), send e-mail to [info@educause.edu](mailto:info@educause.edu), or call 303-449-4430.

PricewaterhouseCoopers is a leading provider of professional services to institutions of higher education, serving a full range of educational institutions—from small colleges to large public and private universities to educational companies.

PricewaterhouseCoopers ([www.pwcglobal.com](http://www.pwcglobal.com)) is the world's largest professional services organization, drawing on the knowledge and skills of more than 150,000 people in 150 countries to help clients solve complex business problems and measurably enhance their ability to build value, manage risk, and improve performance in an Internet-enabled world.

PricewaterhouseCoopers refers to the member firms of the worldwide PricewaterhouseCoopers organization.

humanity, if we can all agree on what must be done. The task is no longer geographically bound, or time-bound, or technology-bound. Yet, as with the backlash against globalization, so there exists a reaction to a globalized educational structure.

Leadership in the learning marketplace is not manifested in technology or techniques; it takes the true form of competent, authentic leaders capable of managing polarity. Moreover, it takes courage, and both institutional and personal commitment to partnering.
