PREFACE

ONE. WOODS	1
Kinds of Lumber	2
Softwoods · Hardwoods · Availability of Lumber	
Hardness of Lumber	3
Grain of Lumber	3
Shrinkage and Swelling	4
How to Recognize Dry Lumber	
Freedom from Warping	6
Ease of Working	7
Paint Holding	8
Stiffness of Lumber	8
Figure in Wood	9
How to Avoid Shrinkage Defects	10
Dressed Lumber	11
Grades of Lumber	11
Softwoods · Hardwoods · Finish Lumber · Floor Lumber ·	
Grading Rules for Maple, Beech, and Birch	
Wood Defects	14
Checks · Knots · Decay · Warping · Wane · Pitch Discoloration	
Board-feet Content	16
Lumber for Various Purposes	18
Exterior House Trim · Living and Dining-room Floors ·	
Uncovered Kitchen Floors · Covered Kitchen Floors · Porch	
Flooring · Rough Framing · Interior Trim · Roof Boards ·	
Window Sash · Shelving: High-class Natural or Paint Finish ·	
Shelving: Unfinished or Plain Paint Coating · Shingles · Siding	
· Outdoor Steps · Subfloors · Sheathing · Concrete Forms ·	
Gates and Fences · Cabinets · Furring Strips · Sills · Screen	
Frames	
Softwood Plywood	21
Hardwood Plywood	21
Grading · Hardwood Plywood Species	
Economical Use of Plywood	26

TWO. FASTENERS	27
Nail-holding Power	28
Nail Shanks	31
Nail Sizes	31
Rule for Length of Nails	31
Typical Nail Data	34
Nail Points	
Diamond Point • Blunt-tapered Point • Long-diamond and Needle Points • Chisel Point • Duck-bill Point	34
Nail Clinching	35
Nailheads	35
General Nailing Specifications	
Figure 2. Two-piece Beam • Figure 3. Double Sill • Figure 4. Joists • Figure 5. Joints Bearing on Beam • Figure 6. Subfloor and Sill • Figure 7. Plywood Subfloor • Figure 8. Studs • Figure 9. Joists Bearing on Ribbon • Figure 10. Rafter Ends • Figure 11. Porch Connections • Figure 12. Diagonal Wall Sheathing • Figure 13. Plywood Wall Sheathing • Figure 14. Singles • Figure 15. Rafter and Ceiling Joists Supported by Wall Plate	40
Fastening Decorative Plywood	41
Fastening Furring Strips to Masonry	43
Concrete Block • Concrete	44
Fastening Sills to Foundations	44
Miter Stiffeners	44
Joist Hangers	46
 THREE. INSULATION	 46
What Is Insulation?	48
Kinds of Insulation	49
Loose Fill • Blanket • Batt • Structural Insulating Board • Slab • Reflective	50
Benefits of Insulation	51
Less Costly Heating System • Less Costly Cooling Systems • Fuel Savings • Power Savings • Decorating Savings • Protection against Vermin • Comfort	51
Insulation Principles	53
Heat Flow • How Heat Flow Takes Place • How Heat Flows through a Wall	54
How Insulation Functions	54
How Much Insulation to Use	54
Condensation	56
Attic Ventilation • Crawl-space Ventilation	56
Suggested Remodeling Projects	56
Top-floor Ceilings • Attic Knee Walls and Roof • Dormers •	56

C O N T E N T S

Roofs • Foundations • Cold Surfaces • Cool and Damp Surfaces • Basement Floors • Floor Slabs • Crawl Spaces • Added Rooms • Ceilings • Floors • Walls • Infiltration • Existing Walls • Frame Walls • Pneumatic Application • Application of Rigid In- sulation • Masonry Walls • Flat Roofs • Sound Transmission • New Construction • Existing Floors • Existing Walls and Ceilings	
How to Plan and Do Typical Remodeling Projects	70
Top-floor Ceiling	70
Knee Walls	72
Collar-beam Ceiling	74
Crawl Spaces	75
Common Condensation Troubles	76
 FOUR. CEILINGS	 78
Plaster Defects	79
Cracks • Natural Conditions • Lumber Shrinkage • Settlement • Expansion and Contraction • Weight Shifts • Wind Force • Unfortunate Conditions • Judging Defects	
Plasterboard Defects	84
Poor Joists • Cracks • Damage Due to Water • Nail Holes	
Suggested Remodeling Projects	85
Repairing Cracked Plaster • New Surfaces over Sound Plaster • Surface Materials • Prefinished Ceiling Tile • New Surfaces over Unsound Plaster • Fastening Tile • Prefinished Ceiling Tile • New Surfaces over Plasterboard • New Surfaces without Plaster • Fastening Furring Strips and Tile	
How to Plan and Do Typical Remodeling Projects	95
Repairing Plaster Cracks	95
Large Cracks • Corner Cracks • Small Cracks • Conclusion	
New Surfaces over Sound Plaster	98
New Surfaces over Unsound Plaster	102
New Surfaces without Plaster	105
Application of Insulation • Application of Furring Strips • Application of Starter Strip • Application of Tile • Painting	
Sloping Attic Ceilings	108
Lowered Ceiling	109
Installation of E Pieces • Installation of 2 by 4 Joists • Applica- tion of Furring Strips • Application of Tile	
Ladders and Scaffold Planks	112
Types of Ladders Recommended • Safety Hints	
 FIVE. WALLS	 113
Plaster and Plasterboard Defects	113
Judging Wall Defects	114

C O N T E N T S

Location of Bathroom Accessories	301
Minimum-sized Bathrooms	302
Duplex Bathrooms	303
Typical Remodeling Projects	305
ELEVEN. STORAGE SPACES	309
Storage-space Safety	310
Lighting · Ventilation · Dust Prevention · Access · Reaching and Climbing · Seldom Used Articles · Outdoor Articles · Poisons · Locations	
Basic Types of Storage Spaces	312
Clothes Closets · Wardrobe Closets · Prefabricated Closets · Storage Spaces	
Closet Fittings	317
Cedar Closets	319
Application	
Closet Doors	321
Folding Doors · Sliding Doors	
Typical Projects	322
INDEX	327
BLUEPRINTS—PLATES I TO VI	341
