GRAVURE ASSOCIATION OF AMERICA
GRAVURE EDUCATION FOUNDATION

TABLE OF CONTENTS

xix	FOREWORD
xxiii	INTRODUCTION
xxvi	AUTHORS

1 WHAT IS GRAVURE?

5 TYPES OF PRINTING

5.....	Relief Printing
5.....	Planographic Printing
6.....	Intaglio Printing

2 HISTORY OF GRAVURE

9 BEFORE PRINTING

10 INVENTION OF INTAGLIO

11 CHEMICAL ETCHING

12.....	Popularity of Engraving
12.....	The Search for Gray Tones

13 INVENTION OF LITHOGRAPHY

14 CYLINDER PRINTING

15	Gravure Cylinders for Textiles
16	Impression Cylinders and Stereotypes

16 INVENTION OF PHOTOGRAPHY

16 THE HALFTONE SCREEN

17.....	Aquatint Provides Tonal Areas
17.....	Development of Photo Resists
18.....	The Halftone Screen
18.....	Carbon Tissue

19 KAREL KLIC AND MODERN GRAVURE

20 FIRST ROTARY GRAVURE PRESS

22 ADVANCES IN ENGRAVING

23 ELECTROSTATIC ASSIST

23 CHRONOLOGY OF GRAVURE PRINTING

3 GRAVURE PRODUCTS AND MARKETS

25 PUBLICATION GRAVURE

26.....	Gravure Magazine Printing
26.....	Gravure Sunday Magazines
27.....	Gravure Catalogs
27.....	Gravure Newspaper Inserts
28.....	Other Commercial Gravure Printing

28	GRAVURE PACKAGING AND CONVERTING
29.....	Gravure Folding Cartons
29.....	Gravure Flexible Packaging
30.....	Gravure Labels and Wrappers
30	PRODUCT GRAVURE
30.....	Gravure Gift Wraps
31.....	Gravure Wallcoverings
31.....	Gravure Vinyl Printing
31.....	Gravure Decorative Laminates
32.....	Gravure Floor Coverings
32.....	Gravure Tissue Products
33.....	Intaglio Plate Printing
33.....	Other Gravure-Printed Products
34	PUBLICATION SERVICE HOUSES
34	PACKAGING AND PRODUCT SERVICE HOUSES

4 BASICS OF COLOR SEPARATION

37	INTRODUCTION
38	COLOR THEORY
38.....	Defining a Standard White Light Source
39.....	Colored Pigmentation
39.....	Additive & Subtractive Color
42.....	Correction for Color Impurities
43.....	The Human Eye and Color
44	MENTAL ASPECTS OF COLOR THEORY
44.....	Fatigue and Strain
44.....	Subjective Memory Colors
45	CATEGORIES OF COLOR COPY
45.....	Transmitted Color
45.....	Use of Dyes in Transparencies
45.....	Reflected Color
46	ROLE OF INKS AND SUBSTRATES
46	MEASUREMENT OF COLOR
47	COLOR MEASUREMENT MODELS
49.....	The Spectrophotometer
49.....	Colorimetry
50.....	Densitometry
51.....	Density Ranges in Transparencies
51.....	Density Ranges in Reflective Art
52.....	Density Ranges in Printing Ink on Paper
52.....	Adjustments for Paper Brightness
53	PRINCIPLES OF COLOR SEPARATION
53.....	Direct Color Separation
53.....	Indirect Color Separation
53.....	Electronic Color Scanning
54.....	Filters Used in the Separation Process
55.....	Screen Size and Angles
56.....	Role of the Black Printer
56.....	Undercolor Removal
56.....	Gray Component Replacement
50.....	Densitometry

57	PROCESS CAMERA SEPARATION	
58	Color Masking
58	Manual Color Correction
59	ELECTRONIC COLOR SCANNERS	
60	Basic Principles of Operation
60	Categories of Original Scanner Art
61	Contrast
61	Color Cast
61	Contone Transparencies
62	GRAVURE SCREENS	
62	Circumferential and Axial Adjustments
62	Offset Separations (Halftone Gravure)
63	Evaluation of Color Separations
63	Tone Reproduction
63	Gray Balance
64	Key and Memory Color Matching

5 GRAVURE CYLINDER ENGRAVING

67	HISTORICAL OVERVIEW	
68	TRADITIONAL CHEMICAL ETCHING	
68	Conventional Etch
70	The Two-Positive System
70	"Hard Dot" or Variable Area Engraving
70	Direct Transfer (Single Positive-Reverse Halftone)
72	Direct Transfer Procedures
72	CHEMICAL ENGRAVING METHODS AND EQUIPMENT	
73	Cell Configurations
73	Advantages of Chemical Etching
73	Disadvantages of Chemical Etching
73	PHOTO AND DIGITAL PROOFS FOR GRAVURE	
74	"Soft" Copy Proofs
74	Ozachrome Proofs (Bluelines)
74	Overlay Proofs
74	Single Sheet Proofing Systems
75	Direct Digital Proofs
75	Offset Press Proofs
78	GRAVURE PRESS PROOFS	
78	Proofs from a Gravure Proof Press
78	Register Control on Proof Presses
79	CYLINDER CORRECTION METHODS	
80	Re-etching Electromechanical Engravings
80	Color Balance Etches
80	Spot Plating
81	THE DEVELOPMENT OF ELECTRONIC ENGRAVING	
82	Variable Cell Size
83	Cell Alignment
83	Cell Walls
83	Screen Angles
85	Engraving Speed
85	Image Scanning
86	Continuous Tone Originals

389	FOUR-COLOR GRAVURE	
389.....		Transparencies
390.....		Reflection Copy
391	RETOUCHING	
394.....	Electronic Retouching	
394.....	Color Scanning and Color Correction	
394	HALFTONE GRAVURE FOR PUBLICATIONS	
395	COPY PREPARATION FOR PACKAGING	

16 GRAVURE INKS AND SOLVENTS

401	COMPOSITION	
401.....		Colorants
402.....		Ink Vehicles
403.....		Solvents
403.....		Ink Additives
404	CLASSIFICATION OF GRAVURE INKS	
407	SOLVENTS	
408	TOXICITY	
408	APPLICATIONS OF GRAVURE INKS AND COATINGS	
409	SPECIAL INKS AND COATINGS	
410	PHYSICAL PROPERTIES OF GRAVURE INK	
410.....		Thixotropy
410.....		Dispersion
411	INK TESTS AND MEASUREMENTS	
412	INK TESTS FOR THE PRINTED SUBSTRATE	
413.....		Ink Adhesion
413.....		Visual Tests
415	WATER BASE INKS	
415.....		Flow Properties
415.....		Resin Solubility
415.....		Evaporation Rate
416.....		Water Base Ink Formulas
416.....		pH Control
416.....		Engravings
416.....		Press Considerations
417.....		Clean-up
417.....		Storage

APPENDICES:

419	A GRAVURE GLOSSARY	
445	INDEX	
460	PHOTO CREDITS & TRADEMARKS	

ISBN 1-880290-00-6
